EDUCATION

Kristu Jyoti College of Management and Technology

Bachelor of Computer Applications

2025 – 2028 (expected)

Kerala, India

Relevant coursework: Data Structures, Operating Systems, Programming in C, Web Development.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS; foundational TypeScript, Python and C

Frontend: React, Vite, Tailwind CSS, responsive design, REST API integration

Tools & platforms: Git, GitHub, Cloudflare Workers, GitHub Pages, Vercel, VS Code, Figma

PROJECTS

INOQR — QR Generation Platform

GitHub | In development

React, TypeScript, Vite, Tailwind CSS

- Developing the frontend for a team QR platform, including the landing page, static QR creation interface, customization preview, and My QRs dashboard.
- Building responsive UI flows for URL, text, email, and Wi-Fi QR codes, with authentication and frontend–backend integration under active development.

Aether Weather App

Live site | GitHub

HTML, CSS, JavaScript, OpenWeatherMap API, Gemini API, Cloudflare Workers

- Built a responsive weather app with city search, geolocation, current conditions, UV index, and weather-reactive backgrounds and animations.
- Integrated Gemini-generated weather summaries through a Cloudflare Worker proxy, keeping the Gemini API key out of the frontend; deployed the app on GitHub Pages.

Personal Portfolio

Live site | GitHub

React, TypeScript, Vite, Framer Motion

- Developed a responsive portfolio presenting projects, experience, and writing, with reusable UI components and animated section transitions.

EXPERIENCE & LEADERSHIP

Edunet Foundation

July – August 2026

Artificial Intelligence Intern — AICTE / IBM SkillsBuild Program

Remote

- Undertook instructor-led training in AI/ML concepts and model fundamentals, applying learning through practical assignments and a mentor-guided AI project.

Google Gemini Campus Program

April – July 2026

Google Student Ambassador

India

- Selected to represent Google Gemini on campus, supporting student outreach and awareness of AI tools through the ambassador program.

Student Mentoring & Technical Writing

2026

Web Development and Arduino Workshops; Inovus Labs Blog

Kerala, India

- Mentored approximately 20 school students through CCA web development sessions and Arduino workshops, explaining concepts through practical activities.
- Wrote articles on CUDA and NVIDIA's software ecosystem for the Inovus Labs blog.
